To whom it may concern:

I do not want my credit checked when a  
small loan is taken out. Some times  
emergencis happen and you need a small  
loan to get by.  
The government should not be allowed to  
control my needs.

I need to get a loan when I need it. Not when the government tells me I need it. Limiting when I can borrow will make my financial life much harder. Emergencies happen unexpectedly. I need the ability to get a small loan when I need it. I know how much I can repay. One of the reasons I like the cash advance is because it doesn't require a long process.

I am truly thankful for Amxot and it's easy process for taking out a quite short-term advance. This process can be easily repaid, so I think that long periods of waiting 30 days to take out another loan is ridiculous, also credit checks are not needed, and longer application processes will hamper me and mess up a good thing. Amxot comes in handy everytime I need a little extra help with paying bills and I think the new rule should not be pass.

Cash Advance's have helped me out of short cash flow situations. Whether it be for a car repair or emergency medical visit, Amscot has been a life saver. The services provided by a Check Cashing Store (Amscot) allow me to handle my emergency cash flow problems on my own & responsibly, without having to ask my family or friends for financial assistance.

In this day and age of economic uncertainty, Amscot has been a service I can truly count on.

Cash Advance loans benefit me because of my pay periods and certain bills due at certain times. It's a way of me being able to pay the bills on time and not falling behind due to my pay period. Limiting Cash advances could increase my chances of not paying bills on time. It would also affect my credit score if constant credit checks are being done. Sometimes emergencies come up and it's a great resource to be able to have the money accessible should the need become present. I greatly appreciate Amcoot for helping me through some difficult times. I pay my loans on time and ~~we~~ both, (Amcoot/customer) Benefit from this.

The cash advance at Amscot has helped me a great deal. I live on monthly checks and the cash advance comes in handy. The credit check ~~is~~ will be bad because some people don't have credit. And the 30 day period will hurt some people because they live on monthly checks. And the payday loans come in handy when something comes up and you need the money. People should be able to get as much loans as they seem to be.

When it May Concern;

I'm on a fix income monthly, I only get SS. benefits to live off. I use the cash advance every month to help pay my bills. I'm highly against this new Federal CFPB Rule because this will limit me on my loan. I'm against this because I have to get a cash advance every month, with out this I would not be able to pay my monthly bills. I can't work because I'm fighting cancer. I pay my cash advance back every month on time, so I feel its wrong to tell someone what they can't borrow. This not for me and I feel I speak on the behalf of many customers. This gives me a sense of proud because I don't have to ask my family to pay anything for me. Cash advance gives me a sense of proud, please let it stay like it is at the present time.

I am told there is a new law in progress  
to change the way AmScot will be  
allowed to cash advance to customers.  
I am on Disability and my check comes  
on the 3rd of every month, AmScot has been  
a life saver when it comes to cash advances!  
I dont have the best credit, so asking for  
a credit check every time I borrow could  
hurt me severely. My credit with AmScot  
is impeccable however a credit check will  
be the deciding factor as to if I get  
a cash advance or (loan). Why would you  
take away a benefit to those who have  
not had it easy. We dont all have bad credit

I just paid my 2nd cash advance payment today. This has allowed me to pay 2 very important bills by simply using my proof of income and bank account info in which both are valid and verified. I do not agree with the federal government having the right to change this. I have a family and household to provide for and I don't always have the money to take care of our immediate needs on every bi-weekly pay period. You need to think about and listen to others before making these decisions.

Dear CFPB.

I completely opposed The new rules The Government wants to implement in the way Cashed checks are doing business.

① Having credit check will affect or impact my Score.

② We can always have emergencies. Having the ability to get a small loan without so many restrictions help.

③ Once I take a loan I know the way to repay. ITS always a small loan.

④ Financially, one needs to be able to take small loans without The Government telling me what I must do.

I don't understand why you would feel the need to make changes to the cash advance system as it stands. I don't see how it is your business. Judging by the name of your Bureau, you are trying to help us, the consumers. I don't see how the proposed changes do that. If you want to regulate the interest rates, sure. But that is regulation for the institutions, not the people. We are free citizens and should be allowed to make our own decisions, for better or worse. It is not up to you. Get out of our lives.

Dear Ms. Jackson,

Please stop the Federal CFPB Rule. We need to use these small loans and it would be a hardship for us not to have these available to use from time to time. AMSCOT has been there for us at times when we required the help; then, we were able to get back on our feet again and did not need the loans.

Please reconsider this or many people like us will suffer unnecessarily.

We are going to be hurt by not being able to use Amscot cash advances when needed, sometimes regularly. As we sometimes need this help Amscot provides us by giving us cash advances to get through to the next month, it helps us to pay bills and pay for items for our household when we run short sometimes. It would also hurt us to run credit check as we do not have good credit and are trying to work on rebuilding it but it takes time and at the moment could not get traditional loans for help at this time any other way. Amscot has helped us many times throughout the year and without this we would really be hurting in our self owned business and our family as sometimes we need a cash advance to get through to our next paycheck.

I do not wish to have my credit checked  
for such a small loan.

AMSCOT has been able to assist me in my  
time of need. I wish for the system to remain  
the same way that it is.

AMSCOT's process is very quick and I never  
have to wait in a long line.

Limiting the number of times i'm allowed to get a loan in a year would affect the most. It could affect my financial life in a ~~good~~ terrible way. I get the loans for a necessity when I need the money. Credit Check is also not going to help because not everyone has a good credit standing but still need the loan for their better lifestyle and needs.

to whom it may concern?

I don't want my credit  
check for a small loan, this  
will affect my credit score.

Please see that state laws  
in Florida allow for only  
one loan at a time, so why  
change it?

Small loans are convenient

I don't feel comfortable having my credit checked  
everytime when I apply for a small cash loan.  
Cash advance is very handy when you  
need instant cash loan in an emergency.  
I don't think the government should have to  
say when I can get a small loan. I can do it  
when I think I need cash. Like in an emergency!  
I should be able to have small loans  
should be available every month of the year  
Also, my information (personal), I don't want  
my private info given out to other company or  
other people.  
These small loans are easier to get quick  
and very shorter process.

I have occasionally used the payday loan service at Amscot. This has been very helpful when I needed the extra cash. I have had no issue paying it back. I, Carlton Hughes currently use the cash advance program for various financial obligations. In addition after work 70 hour work weeks it is nice to be able to get a cash advance for leisure purposes. If I want to take my family on a week end excursion I should be able to as I see fit. If all applicable taxes and dues are paid to the governing body, why would we take this option away from tax paying hard working Americans. Why do we work so hard and strive to provide the best possible living for our families? I think this is wrong and should not be passed. We should have the right to borrow from any lender giving we do not borrow outside of ones means. Please take this to heart and do not take away ~~of~~ our minor luxuries. Thank you for your consideration.

The cash advance has been advantageous in unexpected emergencies. It has helped me to pay my bills when someone hacked into my account and stole my money. It has allowed me to pay the vet when my dog unexpectedly fell ill. It's wonderful to know if something comes up that there is an immediate resource available. Should there be a longer wait period or a more complex application I would not have any way to handle what little unexpected expenses life requires. I budget my money and pay my bills on time but with groceries, utilities, and rent being as expensive as it is there is no room for error. I have been using cash advances for years and have never abused them.

If the government or someone wants to lower the amount of money that comes out of my check every week or come up with another

suggestion then I'm all ears. Until then it seems AmScot is the only unit willing to help when the going gets tough

I think you should leave the Required amounts the way they are. I need a loan a few times a month. Once a month or a credit check would hurt my chances of getting a loan. I need this to pay my bills. 30 days is to long to wait for another loan

To Whom It May Concern,

I AM NOT in favor of the changes proposed. Having the ability to get a cash advance when needed has helped me MORE than 3 times this year. It should be MY decision to obtain an advance. Also I ~~do~~ do NOT want my credit continuously checked. It will have a detrimental effect. This loan option has helped NOT hindered ME.

Limiting my options will MAKE it harder for ME.

I am a firm believer in pay day loans. They help everyone including myself take care of bills and hold that our checks do not cover. If it wasn't for pay day loans I wouldn't be able to live. The new rules that our government put me in the long run. No 1-4 do not benefit me at all. If you really want to see your everyday people struggle that's what's gonna happen if you change things.

The long waiting periods trying to be imposed on us complicates our already difficult lifestyle. The cash advances help us in tight spots to make sure we can keep our lights on or a roof over our heads. This limit there trying to impose would as well ~~add~~ complicate how or when we can get bills paid isn't fair to the customers of amscot. More complex and longer loan process isn't fair to the loanee we already have a heck of a time to get it in the first place.

I need to get a loan when I need it not when the government tells me when I need it. I should be able borrow a small loan without any one to check my credit, if they institution is willing to lend me a small loan it is my constitution right what does it have to do with the government. I follow the institutions rules when to pay back and how much. I do not need any government to make rules when and if I borrow any amount of loan, it is absurd what the government wants to do. Also not to control how many time a year you can get a loan.

The "New Federal CFPB Rule"  
would hurt many of the people in the community

Each credit check produces a hard credit inquiry on a persons credit, this impacts a persons ability to buy a home, cars, loan qualifications, car insurance purchases etc. It would be an ignorant decision to put these new guidelines into place. As of now a person can withdraw up to \$500 on even cash advance loan and must pay it back per the state guidelines, otherwise legal action would be taken. This cash advance programs help families buy groceries, pay for emergency medical care and pay the necessary bills. When would this be reversed?

This would be a very bad ideal to pull a credit check with effects my score each time. With the way it is now I can borrow cash pay it back without checking my credit causing me to have a lower score which ~~hurt~~ hurts my chances of owning a place to stay and or getting a decent vehicle to ride back and forth to work to make a living for myself and family.

I do not like the government to have control over what I choose to do with my finances. I have responsibly used the small loan/cash advance options I currently have available to me, on and off, for many years and for many different reasons. This is a great option for me and for many people. I am hoping there won't be any significant changes to the loan programs I currently enjoy. It is comforting to know they are available, quickly, without hassle, and when I need them.

This is not a very feasible request. I don't want my credit checked every time I borrow money because it lowers your score. I don't see how it would help to wait 30 days for a loan when I need money ASAP. There should not be a limit when I pay interest on the loan. The amount allowed should be up to Amscot not the government. Amscot is very convenient to use, and this would cause a burden.

Rent is the biggest reason I have had friends get cash advances with needing funds to make regular monthly bills without having their credit damaged coming in second. I feel cash advances are a great tool for helping those who are working, struggling & get into a pinch every so often. Unfortunately as with anything you have those who will try to take advantage of the program using the funds for just everyday shopping. However, I feel they are the minority in the picture, the good outweigh the bad.

The Amscot service is very helpful for me as an adult who is single and working towards creating a better life for herself. I don't have credit cards and sometimes need a little help. I work a full time job, I have a business I am trying to get off the ground and going to school part time to get my Masters Degree. Sometimes, there are unexpected emergencies that can not wait for 30 days to receive a cash loan such as being short on rent, car repair service, unexpected school fees, and unusually high utilities. This is not looked at as supplemental income, but just a very much appreciated assistance.

To Whom It May Concern:

Today, I was quite disappointed and concerned when the manager @ AMSCOT, Sample Rd, Ft. Laud, FL informed me of the possible future limitations on cash advances that may negatively impact my financial situation. I am a single, professional woman, who is solely responsible for supporting myself. It is, at times, difficult to make ends meet. With the assistance of cash advances, I have been better able to manage my living expenses. In addition, the advances allow me to assist my aging parents with affording their unforeseen expenses, on occasion. I have an excellent history with regards to repaying my advances in a timely fashion. While my credit score is slowly improving, it is currently lower than average. A huge advantage to obtaining cash advances when I need is that it does not require credit checks. As you know, this would greatly impact my efforts to raise my score. If credit checks become a requirement, it will take much longer to raise my overall credit rating. PLEASE Re-consider this proposal to change rules for cash advances! Surely these changes will not be beneficial to those of us who rely upon cash advances throughout the years.

I believe all these new rules would affect me in a negative way. 30 day wait period in between loans is too long and emergencies can occur at any given moment. I don't believe a credit check is required for such a small loan and would not allow a lot of people to get loans they need. I don't believe there should be a limit on loans either also due to the level of emergency a person might have. These cash advances have helped me a great deal and have gotten me out of a pinch every time.

I don't think the change should happen because some people need those payday loans to help out in a sticky situation. The government has their hand in everything that everyone does already. No need to make people wait 30 days in between each loan. Most people also have bad credit due to bad decisions made when younger. They can't do better if the government wants to rob from the poor just to make themselves richer. Y'all need to cut it out!!

already to get along. Now you guys want to change  
the old system when the old system is working fine. The  
old system works great it is very handy. Just come in  
give them ur info and thats it. It just works great  
I have bills to pay and I pay them on time all  
the time. Now not being able to get a loan until  
30 days away, It helps pay my bills just  
great. Just keep it the way it was.  
These new changes are goin to suck

Making this process difficult and limiting what a person can do each year will put more people in debt. The simple process allows people to get cash if needed for an emergency multiple times if needed. People are generally well informed on what they can repay and make their own informed decision without the government controlling their finances.

I depend on Amso for emergencies such as baby food and other things to help my mother.

Cash advances also improve my credit to ensure car loan is paid on time

The new law should only apply to customers whom are not loyal to Amso — But to those who always pay back on time should not be penalized

And also, not everyone has great credit. Also, Amスコ would lose a lot of people because Amスコ is the only place that doesn't do credit checks. DEAR SIR/MAAM,  
I DO NOT WANT MY CREDIT CHECKED FOR A SMALL LOAN.  
I NEED TO GET A SMALL LOAN, WHEN I NEED IT.  
I DO NOT WANT TO BE LIMITED TO BORROW A LOAN  
WHICH MAKE MY FINANCIAL LIFE HARDER. AN  
EMERGENCY CAN HAPPEN AT ANY MINUTE TO ME.  
I ALSO DO NOT WANT A LONG AND COMPLEX LOAN  
APPLICATION, WHICH IS VERY INTRUSIVE. A  
CREDIT CHECKING FL MAKES NO SENSE SINCE I CAN  
ONLY HAVE ONE LOAN AT A TIME. SO I NEED TO GET  
A LOAN WHEN I NEED IT, NOT WHEN THE GOV'T  
TELLS ME I NEED IT.

It would be very hard to not be able to come to Amscot for a cash advance. I work full time and sometimes the money is not enough. Amscott is that "friend" I can borrow from. They are always willing to help. I don't see how allowing everyone the right to borrow money is such a major concern. There are many Floridians that need and use this service. We do not abuse the service and will always pay back. I hope this law does not pass it will make a very large impact on my family and the extra help Amscott gives.

Not being able to get a cash advance when I need it would defeat the purpose of a quick cash advance, at the point I might as well get a loan from my bank, that is going to effect all lower class citizen in an immensely negative way.

Hello, My name is Angela Freeman. I am a mother of three girls. I use Amscot cash advance services often to help balance my everyday expenses. I am a good customer with Amscot and has been for years. There has never been a problem with Amscot collecting money back from me. I work full-time and contribute to the financial economic stability of the U.S. Amscot's cash advance service is something is very needed to me and others like me who just need a little "extra" help from time to time.

Thank you

I don't like the new law.  
I take the loans to pay bills and  
get school supplies I can't always  
wait 30 days from loan to loan.  
I take a loan when my most expensive  
bills come in just to catch up.  
I have a full time job and it's still  
hard to get everything I need.  
I don't get government help with  
any thing so the loans are the  
only thing that helps me with food  
and the things my kids need.  
This loan is going for school  
supplies. It would be crazy  
if you could only do 3 loans a year  
people do get behind and loans  
help us to get by. And restricting  
the amount of loans someone gets per  
year don't hurt anyone but the person  
taking out the loans.

What I don't need is filling out an hour of  
paper work and showing or bring in a dozen  
sheets to show my need, when my time could be  
on my emergency.

Why is it, the goverment finds it so important to  
stick their nose into everything I do. Next I'll  
have to sign a note to use my own bathroom.

When I borrow, my limit is all I need to cover  
my needs. I don't need someone telling me  
I need to get more that would cause me to  
over draw.

Why can't people or goverment stop trying to  
fix something that is not broken.

Why do I have to be punished, cause (they)

After relying on Amscot cash advances for many years, to assist me in covering food, utility, rent, personal and health crisis while barely making by on 2 and 3 minimum wage jobs at the same time. Florida is a tourist based extremely seasonal work environment. I am currently a federal employee and have not needed to use Amscot services lately and am very grateful. I save atleast a few hundred dollars a month now. My husband is self employed and recently we decided to have his teenage son visit for awhile from overseas, enrolling him in school, and a physical, school supplies and uniform(s) and lunch can be financially straining for any family. I'm so grateful for my new job that I won't take 4-6 weeks to fully repay this small crucial loan.

Amscot employees are always courteous, even when I have needed an extension due to a job change and waiting for the first paycheck or another crisis has occurred. The employees are always nice and understanding. I support anyone going and trying to finish college of some kind, but additional education is not for everyone. And I do not believe our, the U.S. government has any right in telling American citizens how to manage the money we are all working extremely hard to earn while a lot of people are "unemployed" and sitting back enjoying their checks coming in.

Dear Ms. Jackson,

I have been a loyal customer of Amscot for close to ten years. Their services have seen me through two degrees, two kidney transplants, seven years of dialysis, the funeral of my brother, the funeral of my best friend, and currently the loss of income from my fiancée who was forced to retire from the Hillsborough Fire Department five months before he was vested due to Crohn's disease. I work as an executive for a local non-profit and am an active part of my community. As you might guess by the things I have mentioned, medical bills, unforeseen tragedies, and student loans have left me lacking in the credit department. Because of Amscot I have never missed a house or car payment when desperate times occur. Additionally, I care for my veteran father and mother who are both terminally ill. I truly hope that when the time comes to give them,

medical care not covered by insurance I can. Last week alone, Amscot ~~help~~ helped my parents pay for the co-pay for my mothers cancer surgery and for my life sustaining transplant medication. The people that use Amscot are the people that fall through the cracks and have no where else to turn. I have come to think of Amscot as my dependable, trustworthy financial family. While no one wants to face financial hardship, it does happen. I can honestly say that despite having an executive level salary and position due to the circumstances in my life I would have gone without vital medication or lost my home without Amscot to turn to. I truly hope you reconsider the proposed laws that would be detrimental to people like me. I always pay my loans back and though I have gone for years without needing the assistance of Amscot, it is a blessing and security to know they are there when I do need them.

IF I APPLY FOR 500.00 EACH MONTH OF THE YEAR, THAT IS 6000.00 ANNUAL. THAT IS 612.00 INTEREST TOTAL INT AT AMSCOT IS CHEAPER THAN MY CREDIT CARDS, YOUR DEAL AT AMSCOT IS CHEAPER AND MONTH TO MONTH IN MY CASE IT IS OVER AND DONE WHEN YOU PAY BACK THE LOAN. THE PEOPLE THERE ARE VERY NICE AND TREATS EVERYBODY THE SAME. BIG BANKS AND CREDIT CARD COMPANIES ARE VERY RARELY NICE IF YOU CAN TELL ME WERE A GOOD ONE IS PLEASE DO. I HAVE TRADED WITH AMSCOT 4 YEARS AND I JUST LOVE THE PEOPLE THERE - THEY HAVE NEVER SAID NO WHEN I NEED EXTRA MONEY FOR A MONTH. I WISH THE PEOPLE TRYING TO STOP THIS WOULD BE WITHOUT A JOB TO MORROW. LEAVE IT ALONE

Cash advance helps me & my family out a lot. its not everyday i need in advance but to go through this process every time and longer process then its no longer an advance its a fee blown out 100% which i might as well get through my bank. It's ridiculous to put someone through that process for just a quick help if you dont get that then where else do you turn to.

On May 22, 2016 I was injured in a car accident, and my car was very badly damaged. My insurance found a loophole to deny me coverage. If it was not for my ability to receive a cash advance based on my income and not my credit, I would not have been able to afford to pay for the towing of my car. The total to tow my car was \$500, and that didn't include my other household expenses. After I repaid that cash advance I waited 24hrs and got another. I used this one to pay for the car repairs. After repaying this advance my family was back on the road. There are still things to be done but being able to have access to cash advances allowed me to deal with a very expensive unforeseen event. Let, keep up with my regular bill. I always pay on time and only take what I need. Without this resource getting back on the road, and back to work would have been nearly impossible. I would hate for added requirements to take away this extremely helpful resource.

I couldn't imagine having to wait a whole 30 days to be able to even have the option to use a cash advance. This law will only hinder the customers of the loaning institutions. Not only will they lose business in the sense of traffic flow, but money from the interest that is acquired from each loan.

Docket No. CFPB-2016-0025

Date: August 3, 2016

This seems to be a situation that the government is trying to turn a simple process into a major issue. Another area that they feel they need to change when there are so many other topics that need attention.

The subject can be covered in 5 main points:

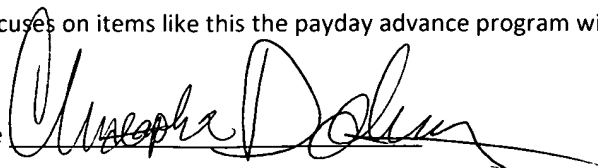

- 1) Required, Intrusive credit checks – This process is a short term paycheck to paycheck process. It is not a long term credit line. If you wish to run a credit check for each one you need to expand on the amount that can be taken and lengthen the pay back terms. Running a credit check for a short term amount would not be fair since we have to pay it back in full on of before the next paycheck. Doing this would additionally have a negative effect on the economy as it will make it harder to get back on ones feet because their credit record will be damaged further and more quickly.
- 2) Long waiting period of 30 days between loans – The reality is emergencies happen, sometimes more than one at a time. When they do it usually takes time to recover. It is understood that pay day advance should not be used as a long term process. However once you are behind sometimes it can take a couple months to get caught back up. I personally at times have had to take an advance every two weeks for a couple months. I taper myself off but it is needed to get back on track. Making it a 30 day window would further damage the economy because more people may get farther behind.
- 3) Limits on the number of Loans allowed in a year – I can see where this may need to be an item to consider. When you do consider it please keep in mind that it can never be predicted if a person will need just one, two or ten. Emergencies have no knowledge of each other and can come in groups. We all have bad times in life and they may require more assistance than other times.
- 4) Complex and long loan application process – this goes back to it being a short term process. If you are going to expand on the application process you need to turn it into a personal loan process and up the amount that is allowed. Having a process like you would for a bank loan or a credit card negates the purpose of the payday advance.
- 5) Limit on the loan amount –The amount that can be received is based on personal information collected. The max payday advance is already set at \$500. How much more can it be limited?

There seems to be a challenge with terms in this entire process. This process is a payday advance. It is not a Loan by the definition that most consumers would use.

The bottom line in this is that the program is working. Why try to fix something that is not broke? Why look at the consumer as if they cannot manage this on their own? We are all adults. We all know the terms and conditions. We do not need the government stepping in and trying to control the consumer.

The government needs to focus on the things that need attention. Focus on those that do not have food, somewhere to live, cloths on their back. If the government focuses on items like this the payday advance program will fix itself if it indeed needs to be fixed.

No estoy de acuerdo con verificación de mi crédito y, tampoco esperar 30 días para aplicar de nuevo para un préstamo. Estos préstamos me han ayudado a resolver problemas personales, antes de cobrar mi salario en el trabajo.

Estos préstamos los quiero sacar cuando tengo necesidad, no cuando quiera el gobierno. El objetivo que cumplen estos préstamos es por su rapidez. Si se demoran no los necesito.

Amscot's cash advance helps me a lot  
when I need it. When I'm short for my  
utilities or my daily living needs Amscot is there  
to help on the spot. It's tough in this world  
and when I'm in need Amscot helps me get ahead  
and not behind. I am survey opposed to all  
the new rules. I know how much I  
need and when I need it by. So stop making  
it harder than what it is. Loans are not big so  
why limit them. I like the way Amscot is  
and should stay the same!!

This rule will be very detrimental to me. I am a single woman with a MEd. and a full-time teaching position and also a tutoring business. I have been teaching for 16 years and because of all of the out of pocket expenses I have as a teacher, I can barely make ends meet. If you pass this bill, I will be unable to have food on my table & clothes on my back, which is necessary to keep my current position. I teach in an area that is 100% free & reduced lunch & breakfast, & we provide our students with food packs for weekends. Without this, my students won't eat! I cannot afford to not have cash advances for my basic needs. How is this idea fair for all of us hard-working Americans that DO NOT use government assistance?

I protest to requiring a credit check for a cash advance. Longer waiting periods would not benefit the people that depend on these loans to survive. There should not be a limit on the number of loans per year because it our choice. No long drawn out applications nor loan limit. The government is always trying to make it difficult for the people that don't have silver spoons in their mouth. Leave this alone. These loans have helped me with my son's college among other things. I will not do to the advantage of the people to change the process.

The New Federal CFPB Rule will be detrimental to my family in many ways.

#1- Credit checks - I am on a fixed income & have a low credit score. Why is my credit score required for a monthly loan that I always pay in full and on time?

#2 - 30 day wait - this will result in unpaid bills with additional late fees, fees which are much higher than the interest I pay monthly now for my cash advance.

#3 Limited loans - I cannot survive financially without the ability to borrow monthly. People like us will be forced out of housing when we can't meet monthly obligations. Or to borrow from less desirable sources - enough said.

#4 - Complex Loan App - Why do we need to be subjected to more frustrating paperwork? All because I don't have enough available cash each month? I use the money to help pay for exorbitant rent, Electric, Water, Phone. Not for frivolous activities. Two grandchildren will be very much affected if this bill gets passed. Seems yet another way to keep people in poverty struggling to survive.

And you are trying to get our one world government plan and down the anti-Christ path. But you don't get my vote. please take off any plans to change things at AM Scott and places of that type. We little people need them to get through from month to month or in a emergencies like for me I had to have a new set of Dentist only with AM Scott did that take place or when my 20 year old car needs repair they help me. leave our personal credit to us, take you illads off the table. they help a lot of people here in FL make a lot of happy kids at Christmas time that would not get anything if family can't have AM Scott I sure it would lead to some people taking there life for the disappointment of what they couldn't do for the kids & family. to much stress out in today. please please I beg you don't pass these rules please.

The cash advance programs give poor people a chance to ~~survive~~ survive, & especially when you have children, sometimes you can't borrow or don't have anyone else to help you, you can go to them. There are a lot of other crucial matters that the federal government could be concern with other than this. One example is making more programs where our children can get jobs when they are in high school, so that this can teach them to be more productive, have more respect for human life, and not be on the streets doing things that jeopardise the freedom, and other lives. There are no more good mentors in who we call our leaders. Thank you for letting me be heard.

To Whom it may concern:

In the state I live in you can only get one loan at a time.  
So why do I have to do a credit check each time. This would  
make my credit score go down each time.

Another reason would be that emergencies do happen.  
You might need to have another loan before the 30 day  
waiting period. To limit the amount of times you get a loan  
is not right if for one needs a loan every month to  
be able to pay my bills on time each month. I know the  
loan I get I can pay back each month.

So you the government should just leave the cash loans  
the way they are.

Por ser límite de crédito bajo  
es bueno tener crédito pequeño extra cuando  
surgen eventualidades si tienes bajos ingresos.  
Es decisión personal, no otro debe decirme si  
presto o no; pero lo que sí afecta es que  
% de interés es un poco alto. Debe informarse  
bien al público como afectará y suficiente  
control hay por todos lados en todo lo que  
hacemos. Me gusta que es rápido proceso.

To whom it may concern,

With my wife out on medical disability, I depend on a little help on occasion. Anscor is a life saver when I need them, I don't think a credit check is necessary or an extended delay when I just need to make it to payday. If it is a God send when they are available to give me a loan and the more discreetly the better. It should be kept the way it is, for those of us who need a little help more often than not. Fast and easy is a good thing, not some embarrassing credit check and the possibility of getting turned down.

To whom it may concern.

Coming in this morning I saw the news about the new federal CFPB Rule. I must say this is VERY alarming for me. I have bad credit, I am a single mom with NO help from the government. My baby daddy just went back to work and after years of struggle this is my safety net. What I need to get by. Reviewing this new process will seriously harm a lot of people in a situation like me. I am always responsible with my bills But unexpected things happen. Tell me who will be able to help if your car breaks down, Rent due, bills are due? AmScot ALWAYS helps out. It is FINE just the way it works. LEAVE IT ALONE!

Thank you!

to whom it may concern -

my husband and I both work 2 full time jobs to provide for our family of 6. While rebuilding credit, and untimely medical issues arise, cash advances help us in emergent times without embarrassing credit inquiries and help these situations decrease our stress and give us the financial help we need immediately. 2 of our children are epileptic and hospitalized constantly. We don't always have the reserve funds available. Without cash advances and their convenience, these hardships would be more stressful than needed when our focus needs to be on our children and their health.

Cash Advances should be allowed at any  
time because multiple scenarios could arise where customers  
would need a cash advance for both pay periods in a month

Customers who use them responsibly and have good  
credit should be entitled to this service. Having your credit  
run puts unwanted inquiries on the credit report. This could  
damage my score.

I dont want my credit checked  
for a small loan.

I like using using the Cash Advance.  
because they dont check my credit  
and hurt my score.

This is just a quick note from a person who really  
needs and uses the cash advance service. I strongly  
think the new changes will negatively affect people like  
myself that use these services. Please leave things  
the way they are now!!

It would be of great disappointment and hardship to take away this most convenient means of acquiring a small loan ASAP when needed. This simple process is so helpfull that no one even want to abuse this gem, when you're have an emergency it's the best thing since slice bread.

Please, people of Low Income status NEED THIS SERVICE just the way it is, it's a saviour in this hard time of scarce financial resources.

This new Federal CFPB Rule if implemented would be a major set back of this simple and personal way to keep your family together financially.

Therefore I beg of you/your office to let this service remain in place for the sake of the less fortunate segment of society that are hardly getting by. Thank You.

I'm not in favor of Federal CFPB a new  
person's issue and family matter that  
needs to be taken care of and have a wait and  
amount to borrow will highly affect it.

My name is Barbara Barbera and I am a almost regular customer. I get cash advances every 2 wks to help me in my financial situation. I was shocked to hear of the different charges that can occur, as possibly a 30 day wait & credit checks. This service has been comment to many people who go to Ansof & don't have the privilege of having good credit & the money on hand.!

P.S. personally & businessly I don't think that will be a good business move. Beside Ansof on 163rd st ne 15 ave. has always been a pleasure to do business & give me and other piece of mind when in a financial situation.

You should not change the guidelines for the cash advance payday loan D/C its is a service to help people in a time of need. By placing new restrictions ~~so~~ on the payday loan ~~o~~ cash advance it could not only be detrimental to someones immediate quality of life, you could also be hindering a U.S. Citizen from receiving the help the need in during a trying time. Regulating this service ~~any~~ further is a terrible idea. Some people truly need this money when they come here & usually have no where else to go & no one else to ask for help. You will be infringing ~~own~~ on someones saving grace & last resort option for little to no reason at all.

I, Lona Palmero, is against the credit advance payday loan because families need an option, which is payday loans, when emergencies arise.

If I'm able to pay the loan then I feel I should have the right to do so as I please.

Respectfully

Dear Federal Government, I am a person who survives on a low income meaning I basically live pay check to pay check. A lot of the time cash advances are what keep me a float. There are certain situations in life that are unpredictable and often expensive. Many times my cash advance is what saves me in my time of need. I do not agree with the purpose changes that are being planned. They do nothing to help the people.
