

SUPPLEMENTARY INFORMATION: PHMSA received a special permit request from TGP, a subsidiary of Kinder Morgan, Inc., on September 26, 2024, seeking the addition of a special permit segment extension to be incorporated into special permit PHMSA–2019–0152. The special permit segment extension request is a part of the active permit’s special permit inspection area (SPIA). Special permit PHMSA–2019–0152

allows TGP to deviate from the Federal pipeline safety regulations in 49 CFR 192.611(a), (d), and 192.619(a), where a gas transmission pipeline segment has undergone a change from a Class 1 to a Class 3 location.

Special permit PHMSA–2019–0152 is active and was granted on March 30, 2023, and is effective until March 30, 2033 for one (1) special permit segment, which include 2,830 feet (approximately

0.536 miles) of the TGP natural gas transmission pipeline system located in the state of Kentucky. The special permit segment extension is requested for an additional 732 feet (approximately 0.139 miles). If granted, the special permit segment would total 3,562 feet (approximately 0.675 miles).

The active special permit segment and requested extension, is as follows:

SPS No.	Status	County, state	Outside diameter (inches)	Line name	Length (feet)	Year installed	Maximum allowable operating pressure (pounds per square inch gauge)
508	Active Segment	Barren, KY	36	800–2	2,830	1968	936
	Extension	Barren, KY	36	800–2	732	1968	936

Upon receipt of this request, an Environmental Protection Specialist from PHMSA’s Environmental Analysis and Compliance Division reviewed the Final Environmental Assessment (FEA) and its findings. In consideration of this, PHMSA finds that the expansion of the proposed special permit would not result in significant impacts to the human environment. Furthermore, the existing FEA and Finding of No Significant Impact remain adequate, pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*). No further environmental assessment is required for this proposal.

TGP’s special permit segment extension request, active special permit with conditions, and FEA are available for review and public comment in Docket No. PHMSA–2019–0152. PHMSA invites interested persons to review and submit comments in the docket on the special permit segment extension request. Please submit comments on any potential safety, environmental, and other relevant considerations implicated by the special permit request. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comments closing date. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, DC, on June 24, 2025 under authority delegated in 49 CFR 1.97.

Linda Daugherty,
Acting Associate Administrator for Pipeline Safety.

Office of the Secretary

Guidance on DOT Referrals for Potential Criminal Enforcement

AGENCY: Office of the Secretary, U.S. Department of Transportation (“DOT”).

ACTION: Notice.

SUMMARY: This notice describes DOT’s plans to address regulatory offenses with criminal liability pursuant to the recent executive order on Fighting Overcriminalization in Federal Regulations.

FOR FURTHER INFORMATION CONTACT: Charles E. Enloe, Assistant General Counsel for Litigation and Enforcement, *Charles.Enloe@dot.gov*, (202) 366–9269.

SUPPLEMENTARY INFORMATION: On May 9, 2025, the President issued Executive Order (“E.O.”) 14294, Fighting Overcriminalization in Federal Regulations. 90 FR 20363 (May 14, 2025). Section 7 of E.O. 14294 provides that within 45 days of the order, and in consultation with the Attorney General, each agency should publish guidance in the **Federal Register** describing its plan to address regulatory offenses with criminal liability.

Consistent with that requirement, DOT advises the public that DOT, in consultation with the Attorney General, will provide to the Director of the Office of Management and Budget (“OMB”) and post on the DOT website a report containing: (1) a list of all criminal regulatory offenses¹ enforceable by DOT or the Department of Justice (“DOJ”); and (2) for each such criminal regulatory offense, the range of potential criminal penalties for a violation and

the applicable mens rea standard² for the criminal regulatory offense. DOT will update the report periodically as required by the E.O.

This notice also announces a general policy, subject to appropriate exceptions and to the extent consistent with law, that when DOT is deciding whether to refer alleged violations of criminal regulatory offenses to DOJ, officers and employees of DOT should consider, among other factors:

- the harm or risk of harm, pecuniary or otherwise, caused by the alleged offense;
- the potential gain to the putative defendant that could result from the offense;
- whether the putative defendant held specialized knowledge, expertise, or was licensed in an industry related to the rule or regulation at issue; and
- evidence, if any is available, of the putative defendant’s general awareness of the unlawfulness of his conduct as well as his knowledge or lack thereof of the regulation at issue.

DOT adheres to DOT Order 8000.8A (Nov. 20, 2020), which provides procedures for referrals for criminal investigation and coordination with the DOT Office of the Inspector General and DOJ.³ DOT also adheres to the Acting General Counsel’s Memorandum, titled “Procedural Requirements for DOT Enforcement Actions” (March 11, 2025), which clarifies the procedural requirements governing enforcement actions initiated by DOT, including administrative enforcement proceedings

² “Mens rea” means the state of mind that by law must be proven to convict a particular defendant of a particular crime. E.O. 14294, sec. 3(c).

³ <https://www.transportation.gov/sites/dot.gov/files/docs/dotorders/CROrder%208000.8A%20final%20signed.pdf>.

¹ “Criminal regulatory offense” means a Federal regulation that is enforceable by a criminal penalty. E.O. 14294, sec. 3(b).

and judicial enforcement actions brought in Federal court.⁴

This general policy is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Gregory D. Cote,

Acting General Counsel.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501 *et seq.*), Federal agencies must obtain approval from the OMB for each collection of information

that they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The OCC asks the OMB to extend its approval of the collection in this notice.

Title: Market Risk.

OMB Control No.: 1557-0247.

Type of Review: Regular.

Affected Public: Individuals; Businesses or other for-profit.

Description: The OCC's market risk capital rule (12 CFR part 3, subpart F) applies to national banks and Federal savings associations with significant exposure to market risk, which include those national banks and Federal savings associations with aggregate trading assets and trading liabilities (as reported in the national bank's or Federal savings association's most recent Call Report) equal to 10 percent or more of quarter-end total assets or \$1 billion or more. The rule captures positions for which the market risk capital rule is appropriate, reduces procyclicality in market risk capital requirements, enhances the risk sensitivity of the OCC's capital requirements by measuring risks that are not adequately captured under the requirements for credit risk, and increases transparency through enhanced disclosures.

The information collection requirements are located at 12 CFR 3.203 through 3.212. The rule enhances risk sensitivity and includes requirements for the public disclosure of certain qualitative and quantitative information about the market risk of national banks and Federal savings associations. The collection of information is necessary to ensure capital adequacy appropriate for the level of market risk.

Section 3.203 sets forth the requirements for applying the market risk framework. Section 3.203(a)(1) requires national banks and Federal savings associations to have clearly defined policies and procedures for determining which trading assets and trading liabilities are trading positions and specifies the factors a national bank or Federal savings association must consider in drafting those policies and procedures. Section 3.203(a)(2) requires national banks and Federal savings associations to have clearly defined trading and hedging strategies for trading positions that are approved by senior management and specifies what those strategies must articulate. Section 3.203(b)(1) requires national banks and Federal savings associations to have
