

hazardous material or its residue or if it is represented and maintained as a Department of Transportation (DOT) packaging usable for hazmat transportation.

(8) *Question:* Are hazardous materials being transported for personal use subject to the HMR? For example, are pesticides that are transported from a store by individuals to treat their garden subject to the HMR?

Answer: The answer is no. Under part 171, the phrase “in commerce” means in furtherance of a commercial enterprise and transportation in a private motor vehicle for personal use is not considered in furtherance of a commercial enterprise even when transported in a leased or rented vehicle.

(9) *Question:* Are privately-owned SCUBA tanks that are used for diving and marked as DOT specification cylinders subject to the HMR?

Answer: A SCUBA tank that is represented as conforming to HMR requirements—*i.e.*, marked with a DOT specification marking—must be maintained by the owner of said SCUBA tank in accordance with the applicable specification requirements whether or not it is in transportation in commerce.

(10) *Question:* Are government-owned hazardous materials transported for government purposes by contractor personnel subject to the HMR?

Answer: The answer is yes. As provided in § 171.1(d)(5), the HMR do not apply to transportation of a hazardous material in a motor vehicle, aircraft, or vessel operated by a Federal, state, or local government employee solely for noncommercial Federal, state, or local government purposes. However, contractor personnel are not considered government employees and the provisions of the HMR apply.

(11) *Question:* Are gasoline cans transported by a landscaping company by motor vehicle subject to the HMR?

Answer: Commercial businesses—such as landscaping, swimming pool services, or construction companies—transporting hazardous materials are considered “in commerce” and subject to the HMR. However, when used in support of a business, the HMR provides an exception in § 173.6 for the transport of “materials of trade.”

(12) *Question:* Are household hazardous wastes that are transported by a private person to a county drop-off facility subject to the HMR?

Answer: The answer is no, provided the household hazardous wastes are the individual’s personal property and he or she is not engaged in a commercial activity, such as a landscaping company or carpentry service.
