Hi Nick et al., DOJ has requested a formal call next week. I am sorry for the timing. We tried to find a way to involve fewer people, but it is not going to work. Sofie will help with scheduling and will cover next week.

Elke

Nick, more from DOE.

Yesterday evening, DOE sent some comments, including those on how a NETL study informing the rule contained an error. DOE is working to update and correct that study. To assist EPA with corrections in the rule, DOE is providing the latest working draft on this report. DOE will send the final report once it is completed.
