

Call with PADEP re: Indiana, PA Attainment plan

Participants: EPA: Cristina Fernandez, Susan Spielberger, Megan Goold, Tim Leon-Guerrero, Alice Chow, Jessica Fry, Marilyn Powers, Sara Calcinore, Doug Snyder, Bob Stoltzfus;

PADEP: John Kruger, Krishnan Ramamurthy, Kirit Dahal, Andrew Fleck, Randy Bordner, Michael Heilman, Mark Gorog, Eric Gustafson,

Date: 3/4/19

Call summary: EPA notified PADEP that a comment was received on the NPRM for the Indiana, PA SO₂ attainment area that shows modeled violations inside and outside the Nonattainment area. EPA discussed potential paths forward including conditional approval, disapproval or additional information that could support the approval. PADEP noted the concerns and will provide a response to EPA shortly.

Call with PADEP re: Indiana, PA Attainment plan

Participants: EPA: Megan Goold, Tim Leon-Guerrero; PADEP: Andrew Fleck

Date: 4/1/19

Call summary: PADEP working with Genon will be submitting supplemental modeling using new met data collected near the source. Using the improved met data will show attainment in the NAA area supporting the emission limits in the attainment plan. The company is providing a Modeling protocol for PA and EPA review mid-April. And likely can finalize modeling in one month from EPA/ PA sign off on that protocol. They are putting a rush on this based on our request.

Call with PADEP re: Indiana, PA Attainment plan

Participants: EPA: Megan Goold; PADEP: Kirit Dahal, Andrew Fleck and Randy Bordner

Date: 11/18/19

Call summary: EPA told PADEP that EPA will not opine on how to classify what they will be submitting – SIP revision or supplemental analysis, however they should follow state code, and we will accept what they submit to us.
