Re: Petition for extension of exemption No. 17430B, granted April 16, 2021  
Regulatory Docket No. FAA-2005-22733

Gentlemen:

Through this communication NetJets Aviation, Inc., Operating Certificate #DXTA401D, represented by Mr. John Coleman, FAR 135 Chief Inspector, 4111 Bridgeway Avenue, Columbus, Ohio, 43219-1882 petitions to extend exemption No. 17430B from 14 CFR §91.203 (a), 14 CFR §91.203 (b), and 14 CFR §47.49. The existing exemption grants relief to permit temporary operation of the Company's U.S. registered aircraft in domestic operations without the registration or airworthiness certificates on board. The exemption is scheduled to expire on July 31, 2023.

An exemption similar to this petition has been granted, amended, and extended, for air carriers operating within the 48 contiguous United States and adhering to the procedures and policies described within the exemption (Ref. Grants of Exemption No. 5318 through 53181).

Accordingly, NetJets Aviation petitions to extend exemption No. 17430B to permit temporary operation of its U.S. registered aircraft in domestic operations without the certificate of registration, airworthiness, or both on board until such time as the lost, stolen, or mutilated certificate(s) can be replaced. A copy of exemption No. 17430B has been attached to better document the request for extension.

This exemption would be in the public interest since delays or cancellations resulting from loss of certificates have been numerous in the past, and said exemption has alleviated, if not eliminate, these occurrences.

An equivalent level of safety is maintained since a method of documentation is found in the Grant of Exemption No. 17430B, which has been in place without negative impact for the past 17-1/2 years.

Should anyone have questions or comments, I can be reached at the address, phone number or e-mail address listed below.

Thank you for your consideration of this petition.

Sincerely,

John Coleman  
*FAR 135 Chief Inspector*
