Certificate of Coverage Request—20 CFR 404.1913—0960—0554. The United States (U.S.) has agreements with 30 foreign countries to eliminate double Social Security coverage and taxation where, except for the provisions of the agreement, a worker would be subject to coverage and taxes in both countries. These agreements contain rules for determining the country under whose laws the worker's period of employment is covered, and to which country the worker will pay taxes. The agreements further dictate that, upon the request of the worker or employer, the country under whose system the period of work is covered will issue a certificate of

coverage. The certificate serves as proof of exemption from coverage and taxation under the system of the other country. The information we collect assists us in determining a worker's coverage and in issuing a U.S. certificate of coverage as appropriate. Per our agreements, we ask a set number of questions to the workers and employers prior to issuing a certificate of coverage; however, our agreements with Denmark, Netherlands, Norway, and Sweden require us to ask more questions in those countries. Respondents are workers and employers wishing to establish exemption from foreign Social Security taxes.

Type of Request: Revision of an OMB-approved information collection.

Background

The Surface Transportation Project Delivery Program, codified at 23 U.S.C. 327, commonly known as the NEPA Assignment Program, allows a State to assume FHWA's responsibilities for environmental review, consultation, and compliance for Federal highway projects. When a State assumes these Federal responsibilities, the State becomes solely liable for carrying out the responsibilities it has assumed, in lieu of FHWA. Effective December 14, 2016, FDOT assumed FHWA's responsibilities for environmental review and the responsibilities for reviews under other Federal environmental requirements.

Section 327(g) of Title 23, U.S.C., requires the Secretary to conduct annual audits to ensure compliance with the memorandum of understanding during each of the first 4 years of State participation and, after the fourth year, monitor compliance. The results of each audit must be made available for public

comment. The third audit report was published in the **Federal Register** on June 17, 2020, at 85 FR 36657. This notice announces the availability of the fourth and final audit report for FDOT and solicits comment on same.

Authority: Section 1313 of Public Law 112–141; Section 6005 of Public Law 109–59; 23 U.S.C. 327; 23 CFR 773.

Acting Administrator, Federal Highway Administration.

Surface Transportation Project Delivery Program, FHWA Audit #4 of the Florida Department of Transportation, May 2019 to April 2020

Executive Summary

This is a report of the fourth and final audit of the Florida Department of Transportation's (FDOT) assumption of National Environmental Policy Act (NEPA) responsibilities under the Surface Transportation Project Delivery Program. Under the authority of 23 U.S.C. 327, FDOT and the Federal Highway Administration (FHWA) executed a memorandum of understanding (MOU) on December 14, 2016, whereby FHWA assigned, and FDOT assumed, FHWA's NEPA responsibilities and liabilities for Federal-aid highway projects and other related environmental reviews for transportation projects in Florida.

The FHWA formed a team in January 2020 to conduct an audit of FDOT's performance according to the terms of the MOU. The team held internal meetings and reviewed FDOT's 2019 Project Development & Environment (PD&E) Manual and NEPA project files, FDOT's response to FHWA's pre-audit information request (PAIR), and FDOT's NEPA Assignment Self Assessment Summary Report. The team presented initial project file observations to FDOT Office of Environmental Management (OEM) on June 26 and July 28, 2020. The team conducted virtual interviews with FDOT, resource agencies, and prepared preliminary audit results from September 21–24, 2020. The team presented these preliminary observations to FDOT OEM leadership on September 25, 2020.

While FDOT continues to develop, revise, and implement procedures and processes required to carry out the NEPA Assignment Program, it is FHWA's expectation that documentation to support a project's decision will be included in the Statewide Environmental Project Tracker (SWEPT) system prior to project close out. By addressing the observation in this report, FDOT will continue to assure a successful program.
