BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 97**

[Docket No. 31626; Amdt. No. 4184]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule amends, suspends, or removes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide for the safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective September 19, 2025. The compliance date for each

SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 19, 2025.

ADDRESSES: Availability of matter incorporated by reference in the amendment is as follows:

For Examination

1. U.S. Department of Transportation, Docket Ops-M30, 1200 New Jersey Avenue SE, West Bldg., Ground Floor, Washington, DC 20590–0001;

2. The FAA Air Traffic Organization Service Area in which the affected airport is located;

3. The office of Aeronautical Information Services, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 or,

4. The National Archives and Records Administration (NARA).

For information on the availability of this material at NARA, visit www.archives.gov/federal-register/cfr/ibr-locations or email fr.inspection@nara.gov.

Availability

All SIAPs and Takeoff Minimums and ODPs are available online free of charge. Visit the National Flight Data Center online at nfdc.faa.gov to register. Additionally, individual SIAP and Takeoff Minimums and ODP copies may be obtained from the FAA Air Traffic Organization Service Area in which the affected airport is located.

FOR FURTHER INFORMATION CONTACT: Gary W. Petty, Manager, Flight Procedures and Airspace Group, Flight Technologies and Procedures Division, Office of Safety Standards, Flight Standards Service, Aviation Safety, Federal Aviation Administration. Mailing Address: FAA Mike Monroney Aeronautical Center, Flight Procedures and Airspace Group, 6500 South MacArthur Blvd., STB Annex, Bldg. 26, Room 217, Oklahoma City, OK 73099. Telephone (405) 954–1139.

SUPPLEMENTARY INFORMATION: This rule amends 14 CFR part 97 by amending the referenced SIAPs. The complete regulatory description of each SIAP is listed on the appropriate FAA Form 8260, as modified by the National Flight Data Center (NFDC)/Permanent Notice to Airmen (P–NOTAM), and is incorporated by reference under 5 U.S.C. 552(a), 1 CFR part 51, and 14 CFR 97.20. The large number of SIAPs, their complex nature, and the need for a special format make their verbatim

publication in the **Federal Register** expensive and impractical. Further, pilots do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained on FAA form documents is unnecessary. This amendment provides the affected CFR sections, and specifies the SIAPs and Takeoff Minimums and ODPs with their applicable effective dates. This amendment also identifies the airport and its location, the procedure and the amendment number.

Availability and Summary of Material Incorporated by Reference

The material incorporated by reference is publicly available as listed in the **ADDRESSES** section.

The material incorporated by reference describes SIAPs, Takeoff Minimums and ODPs as identified in the amendatory language for part 97 of this final rule.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP and Takeoff Minimums and ODP as amended in the transmittal. For safety and timeliness of change considerations, this amendment incorporates only specific changes contained for each SIAP and Takeoff Minimums and ODP as modified by FDC permanent NOTAMs.

The SIAPs and Takeoff Minimums and ODPs, as modified by FDC permanent NOTAM, and contained in this amendment are based on criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these changes to SIAPs and Takeoff Minimums and ODPs, the TERPS criteria were applied only to specific conditions existing at the affected airports. All SIAP amendments in this rule have been previously issued by the FAA in a FDC NOTAM as an emergency action of immediate flight safety relating directly to published aeronautical charts.

The circumstances that created the need for these SIAP and Takeoff Minimums and ODP amendments require making them effective in less than 30 days.

Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPs, and safety in air commerce, I find that notice and public procedure under 5 U.S.C. 553(b) are impracticable and contrary to

the public interest and, where applicable, under 5 U.S.C. 553(d), good cause exists for making these SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 201

[Release No. 34-103980]

Commission's Rules of Practice

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission ("Commission") is amending its Rules of Practice relating to procedures governing Commission review of staff actions made pursuant to delegated authority in connection with the determination of the effective dates of registration statements and post-effective amendments and the determination of the dates and times of qualification of an offering statement and post-qualification amendments under Regulation A.

DATES: *Effective Date:* The final rules are effective September 19, 2025.

FOR FURTHER INFORMATION CONTACT: John Fieldsend, Special Counsel, Division of Corporation Finance at 202-551-3430, or Anna Sandor, Senior Counsel, or Jaea F. Hahn, Senior Counsel, Division of Investment Management, at 202-551-6787, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Commission is adopting amendments to 17 CFR 201.431 ("Rule 431").

I. Background

Rule 431 of the Commission's Rules of Practice governs Commission review of actions made pursuant to delegated authority.¹ Rule 431(e)² provides that an action made pursuant to delegated authority shall have immediate effect and be deemed the action of the Commission. The rule also provides that, upon filing with the Commission

of a notice of intention to petition for Commission review by an aggrieved person, or upon the vote of one member of the Commission that a matter be reviewed, an action made pursuant to delegated authority is automatically stayed until the Commission orders otherwise. The automatic stay does not apply to certain delegated actions specified in Rule 431(e). The Commission is now amending Rule 431(e) to add determinations of the effectiveness of a registration statement and post-effective amendments to a registration statement and determinations of the date and time of qualification of an offering statement and post-qualification amendments to an offering statement under Regulation A³ to the list of actions for which there shall be no automatic stay of delegated action when the Commission reviews an action taken by delegated authority.

Section 5 of the Securities Act of 1933 ("Securities Act")⁴ requires that a registration statement be in effect as to a security before an issuer may sell it.⁵ Under section 8(a) of the Securities Act ("section 8(a)"),⁶ a registration statement becomes effective automatically, without Commission or staff action, on the twentieth day after the registration statement is filed. Securities Act Rule 461⁷ and Rule 473,⁸ implementing section 8(a), provide for an alternative process that allows an issuer to delay automatic effectiveness of a Securities Act registration statement by including a "delaying amendment."⁹

If an issuer includes a delaying amendment, effectiveness of the registration statement is delayed until: (i) the issuer files an amendment specifically stating that the registration statement shall become automatically effective in accordance with section 8(a) of the Securities Act, or (ii) such date as the Commission, acting pursuant to section 8(a), may determine (the "acceleration process").¹⁰ To use the acceleration process, the issuer submits a request that the Commission accelerate the effective date of a

registration statement pursuant to Securities Act Rule 461. Following the issuer's request for acceleration of effectiveness, the staff, acting pursuant to its delegated authority, will accelerate the effective date of the registration statement if it meets the criteria under section 8(a) and Securities Act Rule 461.¹¹

Regulation A provides an exemption from the Securities Act registration requirements for certain offers and sales of securities.¹² Any issuer relying on this exemption must file an offering statement,¹³ and the Commission must qualify the offering statement before the issuer may sell securities.¹⁴ As with a registration statement, the Commission has delegated its authority to qualify an offering statement to the Division of Corporation Finance.¹⁵

The ability to use the acceleration and qualification processes provides issuers flexibility to time their securities offerings based on prevailing market conditions and other transactional considerations. Once a registration statement is effective, market participants such as issuers, underwriters, and the exchange on which the securities will be listed, if any, can immediately engage in market activities related to sales in reliance on the effective registration statement, and often do. Similar considerations apply to sales made in reliance on Regulation A.

We believe that when the acceleration and qualification processes are used, having a stay of the staff's determination go into effect automatically upon the filing of a notice of intent or petition for review, or upon the vote of one member

¹¹ See 17 CFR 200.30-1(a)(5). In addition, the Director of the Division of Corporation Finance has delegated authority to determine to be effective applications for registration of securities on a national securities exchange prior to 30 days after receipt of a certification pursuant to section 12(d) of the Exchange Act (15 U.S.C. 78l(d)), and to accelerate at the request of the issuer the effective date of registration statements filed pursuant to section 12(g) of the Exchange Act (15 U.S.C. 78l(g)). See 17 CFR 200.30-1(f)(1) and (f)(6). The Director of the Division of Investment Management possesses similar delegated authority to accelerate effectiveness of a registration statement under the Securities Act and the Exchange Act. See 17 CFR 200.30-5.
