Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Agricultural Aircraft Operations

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request Office of Management and Budget (OMB) approval to renew an information collection. The collection involves the submission of FAA Form 8710-3 for the certification process of agricultural aircraft operators, and other reporting and recordkeeping activities required of agricultural aircraft operators. The information to be collected is necessary to evaluate the applicants' qualifications for certification. This collection also involves the submission of information in petitions for exemption by agricultural aircraft operators, plans for operations over congested areas, and recordkeeping requirements for agricultural aircraft operators.

DATES: Written comments should be submitted by April 30, 2021.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0049.
Title: Agricultural Aircraft Operations.

Form Numbers: FAA Form 8710-3.

Type of Review: Renewal.

Background: This collection involves the application for issuance or amendment of a 14 CFR part 137 Agricultural Aircraft Operator Certificate. Application for an original certificate or amendment of a certificate issued under 14 CFR part 137 is made on a form, and in a manner prescribed by the Administrator. The FAA form 8710-3 may be obtained from an FAA Flight Standards District Office, or online at <https://www.faa.gov/forms/index.cfm/go/document.information/documentID/1020386>. The completed application is sent to the district office that has jurisdiction over the area in which the applicant's home base of operation is located.

The information collected includes: Type of application, operator's name/DBA, telephone number, mailing address, physical address of the principal base of operations, chief pilot/designee name, airman certificate grade and number, and aircraft make/model and registration numbers to be used.

This information collection also includes safety mitigation plans and public interest statements in petitions for exemption; plans for operations over congested areas; and recordkeeping requirements.

Respondents: There are 1,763 active agricultural aircraft operators. Approximately 50 operators are certificated annually, and approximately 50 certificates are surrendered or revoked.

Frequency: New applications when needed; current 14 CFR part 137 certificate do not expire, but may need to be amended on occasion.

Estimated Average Burden per Response: The FAA anticipates 100 applications for new certificates, at 0.5 hours each; 100 applications for amendment, at 0.5 hours each; 100 petitions for exemption, at 0.5 hours each; and 350 submissions of plans for operations over congested areas, at 0.5 hours each. The total reporting burden is thus 650 responses and 325 hours.

All operators certificated under part 137 are required to maintain certain records for a minimum of 12 months. The FAA estimates this recordkeeping burden at 4.5 hours per operator. Assuming a universe of 1,763 operators, the annual recordkeeping burden is 7,934 hours.

Estimated Total Annual Burden: 325 reporting hours + 7,934 recordkeeping hours = 8,259 total hours.

Issued in Washington, DC, on February 23, 2021.

*Project Manager, Flight Standards Service,
General Aviation and Commercial Division.*
