Mr. Scott Murray  
C.E.O.  
Bell Murray Aerospace, Inc.

Dear Mr. Murray:

This letter is to inform you that the Federal Aviation Administration (FAA) is unable to process your request for an exemption from § 61.156(a) of Title 14, Code of Federal Regulations (14 CFR). It explains why the FAA can not process your request and what you should do in the next 30 days.

### **Why the FAA Can Not Process Your Request**

The FAA entered your May 14, 2021, exemption request on behalf of Bell Murray Aerospace, Inc. into the public docket (No. FAA-2021-0464), but the FAA is unable to process your request any further. The information you sent does not comply with the requirements of § 11.81 (copy enclosed). For the FAA to consider the request any further, you must send the FAA all of the following:

- Your name and mailing address, and, if you wish, other contact information such as a fax number, telephone number, or email address.
- The reasons why granting the request would be in the public interest; that is, how it would benefit the public as a whole.
- The reasons why the exemption would not adversely affect safety or how the exemption would provide a level of safety at least equal to that provided by the rule from which you seek an exemption.

### **What You Should Do**

If you want the FAA to process your request any further, you must send the information described earlier to reach us within 30 days of the date of this letter. The FAA will consider the project on your request open during this 30 day period. Please note that § 11.63(d) requires you to send your petition for exemption at least 120 days before the proposed effective date of the exemption.
