Background

The ARDOT and TDOT closed the I-40 Bridge over the Mississippi River between Arkansas and Tennessee on May 11, 2021, for safety considerations. During a routine inspection of the I-40 Bridge by ARDOT, a mechanical fracture was discovered within the elements of a steel box beam. Local law enforcement agencies were immediately notified to shut down the bridge to all traffic. FHWA is providing notice that ARDOT and TDOT are continuing the temporary closure of the I-40 Bridge for an indefinite period of time.

FHWA is responsible for enforcing the Federal regulations applicable to the National Network of highways that can safely and efficiently accommodate the large vehicles authorized by provisions of the Surface Transportation Assistance Act of 1982, Public Law 97-424 as amended, designated in accordance with 23 CFR part 658 (Truck Size and Weight, Route Designations—Length, Width and Weight Limitations) and listed in Appendix A to Part 658. Under 23 CFR 658.11 (Additions, deletions, exceptions, and restrictions), FHWA may approve deletions of, or use restrictions on, the Interstate system or other National Network route based upon specified justification criteria in 23 CFR 658.11(d)(2). FHWA is authorized to delete any route from the National Network on an emergency basis based on safety considerations pursuant to section 658.11(e), which also requires publishing this notice in the **Federal Register** for comment.

The closure of the I-40 Bridge has affected traffic throughout western Tennessee, the Memphis metropolitan area, and eastern Arkansas. The I-40 Bridge and the I-55 Memphis-Arkansas Bridge (I-55 Bridge) are the only two Mississippi River crossings in the Memphis area. The additional traffic on I-55 due to the I-40 Bridge closure has increased delays in crossing the river.
