RE: Letter of Intent – Exemption No. 19176

To Whom it May Concern:

NBAA member Epps Air Service, Inc (Part 135 Air Carrier ESMA688D) is submitting this letter of intent for Exemption No 19176 (Docket No. FAA-2022-0795). Approval of this exemption for Epps Air Service is necessary due to the burden and cost of manually entering each individual data point required by 14 CFR 111 as of June 10, 2022. As a holder of Op Spec A025, Epps Air Service feels the future capability of electronically uploading data points into the PRD will significantly reduce such labor costs which would have to be passed onto the public without this exemption.

Epps Air Service will act consistently with the Conditions and Limitation listed for the exemption in the regulatory docket, as well as will provide our FAA POI with the required information as listed under said Conditions and Limitations section for the exemption approval in Op Spec A005

Regards,

A handwritten signature in black ink that reads "Gregg Johnson".
