

is no longer needed; removing the cities associated with the airports to comply with changes to FAA Order JO 7400.2P, Procedures for Handling Airspace Matters; and updating the geographic coordinates of the Cincinnati/Northern Kentucky International Airport, Covington, KY, and the name of the Cincinnati Municipal Airport/Lunken Field (previously Cincinnati Municipal Airport-Lunken Field) to coincide with the FAA's aeronautical database.

The FAA is proposing this action as the result of an airspace review conducted due to the decommissioning of the Cincinnati VOR as part of the VOR MON Program and to support IFR operations.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class D airspace and Class E surface airspace at Cincinnati Municipal Airport/Lunken Field, Cincinnati, OH, to support IFR operations at this airport.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it received on or before

the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT post these comments, without edit, including any personal information the commenter provides, to www.regulations.gov as described in the system of records notice (DOT/ALL-14FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Incorporation by Reference

Class D and E airspace is published in paragraphs 5000 and 6002 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. These updates would be published subsequently in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by:

Modifying the Class D airspace within a 4.2-mile (increased from a 4.1-mile) radius of Cincinnati Municipal Airport/Lunken Field, Cincinnati, OH; and within 2 miles each side of the 024°

bearing from the airport extending from the 4.2-mile radius to 5.9 miles northeast of the airport; and within 2 miles northwest and 1.7 miles southeast of the 064° bearing from the airport extending from the 4.2-mile radius to 5.3 miles northeast of the airport; and within 2.1 miles each side of the 204° bearing from the airport extending from the 4.2-mile radius to 6.2 miles southwest of the airport; and within 2 miles northwest and 1.7 miles southeast of the 244° bearing from the airport extending from the 4.2-mile radius to 5.2 miles southwest of the airport; updating the name of the airport (previously Cincinnati Municipal Airport Lunken Field) to coincide with the FAA's aeronautical database; and replacing the outdated terms "Notice to Airmen" and "Airport/Facility Directory" with "Notice to Air Missions" and "Chart Supplement";

And modifying the Class E surface airspace to within a 4.2-mile (increased from a 4.1-mile) radius of Cincinnati Municipal Airport/Lunken Field, Cincinnati, OH; and within 2 miles each side of the 024° bearing from the airport extending from the 4.2-mile radius to 5.9 miles northeast of the airport; and within 2 miles northwest and 1.7 miles southeast of the 064° bearing from the airport extending from the 4.2-mile radius to 5.3 miles northeast of the airport; and within 2.1 miles each side of the 204° bearing from the airport extending from the 4.2-mile radius to 6.2 miles southwest of the airport; and within 2 miles northwest and 1.7 miles southeast of the 244° bearing from the airport extending from the 4.2-mile radius to 5.2 miles southwest of the airport; updating the name of the airport (previously Cincinnati Municipal Airport Lunken Field) to coincide with the FAA's aeronautical database; and replacing the outdated terms "Notice to Airmen" and "Airport/Facility Directory" with "Notice to Air Missions" and "Chart Supplement".

This action is the result of an airspace review conducted as part of the decommissioning of the Cincinnati VOR as part of the VOR MON Program and to support IFR operations at this airport.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February

26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
