DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 73

[Docket No. FAA-2025-0273; Airspace
Docket No. 23-ASO-43]

RIN 2120-AA66

Establishment of Restricted Areas R-5305A, R-5305B, and R-5305C; Camp Lejeune, NC; and Restricted Areas R-5307A, R-5307B, and R-5307C; Cherry Point, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (SNPRM).

SUMMARY: This action revises an earlier notice of proposed rulemaking (NPRM) that the FAA published in **Federal Register** on March 20, 2025, by correcting the geographic coordinates of a boundary point in proposed restricted areas R-5305A, R-5305B, and R-5305C; Camp Lejeune, NC. This action continues to propose restricted areas R-5307A, R-5307B, and R-5307C; Cherry Point, NC. The purpose of this proposal is to create additional restricted area airspace to connect restricted area R-5003, R-5004, and R-5306 complexes to contain hazardous activities such as weapon deployment, non-eye safe lasers, and artillery within larger contiguous restricted area airspace that is required to realistically simulate essential training mission tasks.

DATES: Comments must be received on or before July 18, 2025.

ADDRESSES: Send comments identified by FAA Docket No. FAA-2025-0273

and Airspace Docket No. 23-ASO-43 using any of the following methods:

* **Federal eRulemaking Portal:** Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

* **Mail:** Send comments to Docket Operations, M-30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12-140, West Building Ground Floor, Washington, DC 20590-0001.

* **Hand Delivery or Courier:** Take comments to Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* **Fax:** Fax comments to Docket Operations at (202) 493-2251.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes restricted area airspace at Camp Lejeune, NC and Cherry Point, NC, to enhance aviation safety and accommodate essential United States (U.S.) Marine Corps training activities.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically

invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing. There is no need to re-post comments already submitted to this docket in connection with the earlier NPRM.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address, phone number, and hours of operation). An informal docket may also be examined during normal business hours at the office of the Eastern Service Center, Federal Aviation Administration, Room 210, 1701 Columbia Avenue, College Park, GA 30337.

Background

On March 20, 2025, the FAA issued an NPRM (90 FR 13112) in this docket. Subsequent to publication of the NPRM,

the FAA identified that it incorrectly stated a geographic coordinate due to a rounding error. This geographic coordinate partially defines the northern boundary of restricted areas R-5305A, R-5305B, and R-5305C. As restricted areas R-5305A, R-5305B, and R-5305C are proposed to share the same lateral boundaries, updating this coordinate moves the northern boundary approximately 1 nautical mile north of the position listed in the NPRM. The point “lat. 34°41’00” N, long. 077°24’59” W” is changed to “lat. 34°42’00” N, long. 077°24’59” W” as originally intended. Additionally, the supporting graphic depicting the boundary of restricted area R-5305A, R-5305B, and R-5305C, overlaid on a sectional chart, correctly depicts the intended boundary.

Other components of the proposal from the original NPRM remain unchanged.

The Proposal

The FAA is proposing an amendment to 14 CFR part 73 to establish restricted areas R-5305A, R-5305B, and R-5305C; Camp Lejeune, NC. This additional restricted area airspace, combined with the existing restricted area R-5003, R-5004, and R-5306 complexes, would support USMC training and readiness requirements and would provide the contiguous restricted area airspace required to contain hazardous activities such as weapon deployment, non-eye safe lasers, and artillery necessary to conduct complex training scenarios required to realistically train to accomplish mission essential tasks.

Proposed restricted areas R-5305A, R-5305B, and R-5305C would share the same lateral boundaries. Restricted area R-5305A would be from the surface to but not including 7,000 feet MSL, excluding the airspace from the surface to 200 feet above ground level (AGL) within 200 feet either side of U.S. Highway 17. Published times of use would be Monday through Friday, 0600 to 2359 local time, other times of use would be published in a Notice to Airmen (NOTAM) at least 24 hours in advance. Restricted area R-5305A would be expected to be activated 8 hours per day, 150 days per year. Approximately 25 percent of the activation time would be during the hours of darkness, and approximately 5 percent of all activation would include fixed-wing operations.

Restricted area R-5305B would be from 7,000 feet (mean sea level) MSL to but not including 10,000 feet MSL. A NOTAM would publish the intermittent times of use of restricted area R-5305B. Restricted area R-5305B is expected to

be activated 4 hours per day, 30 days per year. Approximately 25 percent of the activation time would be during the hours of darkness, and approximately 50 percent of the activation time would include fixed-wing operations.

Restricted area R-5305C would be from 10,000 feet MSL to but not including FL 180. A NOTAM would publish intermittent times of use of restricted area R-5305C. It is expected to be activated 4 hours per day, 30 days per year. Approximately 25 percent of the activation time would be during the hours of darkness, and approximately 50 percent of the activation time would include fixed-wing operations.

The full descriptions of the above restricted areas are set forth below in the proposed amendments to part 73. This action continues to propose restricted areas R-5307A, R-5307B, and R-5307C; Cherry Point, NC.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

FEDERAL TRADE COMMISSION

16 CFR Parts 2 and 3

[File No. R507004]

Petition for Rulemaking of Alliance for Natural Health USA; Xlear, Inc.; and Better Way Health

AGENCY: Federal Trade Commission.

ACTION: Receipt of petition; request for comment.

SUMMARY: Please take notice that the Federal Trade Commission ("Commission") received a petition for rulemaking from Alliance for Natural Health USA; Xlear, Inc.; and Better Way Health, and has published that petition online at <https://www.regulations.gov>. The Commission invites written comments concerning the petition. Publication of this petition is pursuant to the Commission's Rules of Practice and Procedure and does not affect the legal status of the petition or its final disposition.

DATES: Comments must identify the petition docket number and be filed by July 18, 2025.

ADDRESSES: You may view the petition, identified by docket number FTC-2025-0036, and submit written comments concerning its merits by using the Federal eRulemaking Portal at [https://](https://www.regulations.gov)

www.regulations.gov. Follow the online instructions for submitting comments. Do not submit sensitive or confidential information. You may read background documents or comments received at <https://www.regulations.gov> at any time.

FOR FURTHER INFORMATION CONTACT: Office of the Secretary (phone: 202-326-2514, email: ElectronicFilings@ftc.gov), Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: Pursuant to section 18(a)(1)(B) of the Federal Trade Commission Act, 15 U.S.C. 57a(1)(B), and FTC Rule 1.31(f), notice is hereby given that the above-captioned petition has been filed with the Secretary of the Commission and has been placed on the public record for a period of 30 days. Any person may submit comments in support of or in opposition to the petition. All timely and responsive comments submitted in connection with this petition will become part of the public record.

This petition requests to reform FTC procedures and practices affecting the issuance of civil investigative demands; FTC burdens of proof and pleading requirements in hearings; and FTC procedures and practices affecting appeals from Initial Decisions of Administrative Law Judges in health-related product advertising cases under Sections 5 and 12 of the Federal Trade Commission Act. The Commission will not consider the petition's merits until after the comment period closes. It may grant or deny the petition in whole or in part, and it may deem the petition insufficient to warrant commencement of a rulemaking proceeding. The purpose of this document is to facilitate public comment on the petition to aid the Commission in determining what, if any, action to take regarding the request contained in the petition. This document is not intended to start, stop, cancel, or otherwise affect rulemaking proceedings in any way.

Because your comment will be placed on the publicly accessible website at <https://www.regulations.gov>, you are solely responsible for making sure your comment does not include any sensitive or confidential information. In particular, your comment should not include any sensitive personal information, such as your or anyone else's Social Security number; date of birth; driver's license number or other state identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. You are also solely responsible for making sure your

comment does not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, your comment should not include any "trade secret or any commercial or financial information which . . . is privileged or confidential"—as provided by section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule 4.10(a)(2), 16 CFR 4.10(a)(2).

40 CFR Part 52

[EPA-R08-OAR-2025-0054; FRL-12595-01-R8]

Air Plan Approval; Utah; Interstate Transport of Air Pollution for the 2008 8-Hour Ozone National Ambient Air Quality Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Pursuant to the Federal Clean Air Act (CAA or the Act), the Environmental Protection Agency (EPA) is proposing to approve a portion of a Utah State Implementation Plan (SIP) submission addressing interstate transport for the 2008 8-hour ozone national ambient air quality standard (NAAQS). The "interstate transport" provision requires that each state's SIP contain adequate provisions to prohibit emissions from within the state from significantly contributing to nonattainment or interfering with maintenance of the NAAQS in other states. In this action, EPA is only addressing the requirement prohibiting interference with maintenance, referred to as "prong 2," for the 2008 ozone NAAQS.

DATES: Written comments must be received on or before July 18, 2025.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R08-OAR-2025-0054, to the Federal Rulemaking Portal: <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from <https://www.regulations.gov>. EPA may publish any comment received to its public
