**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

#### SUPPLEMENTARY INFORMATION:

##### Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the

safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace in Elmira, NY.

#### History

The FAA published an NPRM for Docket No. FAA-2025-1671 in the **Federal Register** (90 FR 30831; July 11, 2025), proposing to amend Class E airspace over Elmira/Corning Regional Airport, Elmira, NY. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

#### Incorporation by Reference

Class E airspace designations are published in paragraph 6004 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the latest version of that order, FAA Order JO 7400.11K, dated August 4, 2025, and effective September 15, 2025. These amendments will be published in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11K, which lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points, is publicly available as listed in the **ADDRESSES** section of this document.

#### The Rule

This action amends 14 CFR part 71 by modifying the Class E4 airspace for Elmira/Corning Regional Airport, Elmira, NY. Controlled airspace is necessary for the safety and management of IFR operations in the

area for existing instrument approach procedures.

This action amends the Class E4 airspace over Elmira, NY, by changing the airspace dimensions to: that airspace extending upward from the surface within 1.9 miles each side of the 050° bearing from the airport extending from the 4.2-mile radius of Elmira/Corning Regional Airport to 6.2-miles northeast of the airport, within 1.9 miles each side of the 090° bearing from the airport extending from the 4.2-mile radius to 6.3 miles east of the airport, within 1.9 miles each side of the 230° bearing from the airport extending from the 4.2-mile radius to 7.1 miles southwest of the airport, and within 1.8 miles each side of the 269° bearing from the airport extending from the 4.2-mile radius to 8 miles northwest of the airport. This reconfiguration properly contains the currently published standard instrument approach procedures.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1G, “Environmental Impacts: Policies and Procedures,” paragraph B–2.5. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant the preparation of an environmental assessment.

**Advisory Committee; Arthritis Advisory Committee; Termination; Removal From List of Standing Committees**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Final rule.

**SUMMARY:** The Food and Drug Administration (FDA or the Agency) is announcing the termination of the Arthritis Advisory Committee (Committee). Due to that termination, this final rule removes the Committee from the Agency’s list of standing advisory committees in 21 CFR 14.100.

**DATES:** This rule is effective August 29, 2025.

Emily Helms Williams, Director, Advisory Committee Oversight and Management Staff, Office of the Chief Scientist, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 1, Silver Spring, MD 20993–0002, 301–796–3381, [Emily.HelmsWilliams@fda.hhs.gov](mailto:Emily.HelmsWilliams@fda.hhs.gov).

**SUPPLEMENTARY INFORMATION:** The Arthritis Advisory Committee was established on April 5, 1974 (39 FR 14737), to advise the Commissioner of Food and Drugs or designee in discharging responsibilities as they relate to helping to ensure safe and effective drugs for human use in arthritic conditions, and as required, any other product for which FDA has regulatory responsibility.

This Committee has met infrequently in recent years, and FDA has determined that the effort and expense of maintaining the Committee is no longer justified. The Committee was terminated on July 30, 2025 (90 FR 35876). Therefore, the Agency is amending 21 CFR 14.100 to remove the Committee’s name and function from its current list of standing advisory committees, as set forth in the regulatory text of this document.

Under 5 U.S.C. 553(b)(4)(B) and (d) and 21 CFR 10.40(d) and (e), the Agency finds good cause to dispense with notice and public comment procedures and to proceed to an immediate effective date on this rule.

Notice and public comment and a delayed effective date are unnecessary and are not in the public interest as this
