14 CFR Part 71

[Docket No. FAA-2021-1049; Airspace Docket No. 21-ASO-36]

RIN 2120-AA66

Proposed Amendment of Class E Airspace; Hampton, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E airspace extending upward from 700 feet above the surface for Atlanta Speedway Airport (formerly Clayton County-Tara Field) by updating the airport's name and updating the geographical coordinates to coincide with the FAA's database. Also, during a review of the airspace, it was determined that an increase in the radius was needed. This action would also remove excessive verbiage from the legal description of the airport. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend Class E airspace for Hampton, GA to support IFR operations in the area.

The Proposal

The FAA proposes an amendment to 14 CFR part 71 to amend Class E airspace extending upward from 700 feet above the surface at Atlanta Speedway Airport (formerly Clayton County-Tara Field), Hampton, GA by updating the airports name and updating the geographical coordinates of the airport to coincide with the FAA's database. This action would also increase the radius to 9.2 miles (formerly 6.8 miles) and eliminate excessive verbiage in the legal description.

Class E airspace designations are published in Paragraphs 6005 of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures", prior to any FAA final regulatory action.
