

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****[Docket No. FAA–2023–1426]****Agency Information Collection****Activities: Requests for Comments;
Clearance of a Renewed Approval of
Information Collection: Protection of
Voluntarily Submitted Information****AGENCY:** Federal Aviation
Administration (FAA), DOT.**ACTION:** Notice and request for
comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 23, 2023. The collection involves protection of voluntarily submitted information. Part 193 of the Federal Aviation Administration (FAA) regulations provides that certain information submitted to the FAA on a voluntary basis is not to be disclosed. This part implements a statutory provision. The purpose of part 193 is to encourage the aviation community to voluntarily share information with the FAA so that the agency may work cooperatively with industry to identify modifications to rules, policies, and procedures needed to improve safety, security, and efficiency of the National Airspace System (NAS). The information collection associated with part 193 also supports the Department of Transportation's Strategic Goal of Safety and Security.

DATES: Written comments should be submitted by April 4, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's

performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0646.

Title: Protection of Voluntarily Submitted Information.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 23, 2023 (88 FR 41185). Part 193 of the FAA regulations provides that certain information submitted to the FAA on a voluntary basis is not to be disclosed. Part 193 implements a statutory provision. Section 40123 was added to title 49, United States Code, in the Federal Aviation Reauthorization Act of 1996 to encourage people to voluntarily submit desired information. Section 40123 allows the Administrator, through FAA regulations, to protect from disclosure voluntarily provided information relating to safety and security issues.

The purpose of part 193 is to encourage the aviation community to voluntarily share information with the FAA so that the agency may work cooperatively with industry to identify modifications to rules, policies, and procedures needed to improve safety, security, and efficiency of the National Airspace System. FAA programs that are covered under part 193 are Voluntary Safety Reporting Programs, Air Traffic and Technical Operations Safety Action programs, the Aviation Safety Action Program, and the Voluntary Disclosure Reporting Program. This rule imposes a negligible paperwork burden for certificate holders and fractional ownership programs that choose to submit a letter notifying the Administrator that they wish to participate in a current program.

The number of respondents has greatly increased since the initial approval of this information collection. In order to accurately reflect the burden of this information collection going forward, the FAA has included total current participants in the programs.

Respondents: 2604.

Frequency: Varies per response type.

Estimated Average Burden per Response: Varies per response type.

Estimated Total Annual Burden: 493,723 Hours.

Issued in Washington, DC, on February 29, 2024.

Sandra L. Ray,

Aviation Safety Inspector, AFS–260.
