Most recent tables from [Livestock, Dairy, and Poultry Outlook](#).

Note: On March 27, 2015, the Livestock and Meat Domestic Data product began featuring historical data for Livestock Prices and Wholesale Prices. Each of these spreadsheet files now has one new tab:

The new tabs "livestock prices (historical)" and "wholesale prices (historical)" contain monthly data going back to 2000. This data is in a different format than the recent data.

The other tabs "livestock prices (current)" and "wholesale prices (current)" provide same data content and format as previously released updates.

New: See [interactive chart](#) with historical data on cattle dressed weights and beef prices.

For additional historical data, dating back to the 1970s, visit the ERS Red Meat Yearbook page at <http://usda.mannlib.cornell.edu/MannUsda/viewDocumentInfo.do?documentID=1354>
