I do not support the National Marine Fisheries Service's Supplemental Draft Programmatic Environmental Impact Statement (PEIS) related to the Arctic. The purpose of the PEIS is supposed to be to protect marine mammals from noise-related impacts of offshore oil and gas development in Alaska's Arctic waters.

But it doesn't. The PEIS is flawed. It is built on poor and outdated science. And it fails to consider the cumulative negative effects of industrial noise on wildlife. None of the alternatives called out in the study adequately meet the requirements of the law to protect Arctic marine wildlife.

I urge the agency to shelve this document and withhold permits until the agency can demonstrate its ability to protect marine mammals from the cumulative impacts of industrial noise in the Arctic.
